FlatMatch — Components Map

Three friends, one private form each. Every listing is checked against **everyone's** dealbreakers. **The humans decide.**

Human checkpoint (5) · Deterministic rules, no AI · AI: parsing only

Free external link · Database · App / user step

- **Unknown ≠ pass:** anything unconfirmed goes to "Needs verification", never "Qualifies".
- **Never picks the flat** or weighs one friend's needs against another's.
- **100% free:** Vercel Hobby · Supabase Free · Gemini free tier. No scraping, no paid maps.
